

IN JAIL.

North Dakota, is not a place as its name would indicate. Some time ago they voted out the saloons and as a consequence the jails have ceased to be the abode of prisoners. The last State S. S. Convention was held there and the places of entertainment were all taken. They converted the jail into a "Sheriff's Hotel" and sent all the prisoners to jail for entertainment. It was an unusual experience and one which they very much enjoyed. Prohibition has accomplished some wonderful things, but this is the first time we have any record of its resulting in preachers being sent to jail. It is not an uncommon experience for prohibition to render the jail useless.

CARD OF THANKS.

We take this method of returning our sincere and heartfelt thanks to our neighbors and friends for the great kindness shown us during the illness and death of our husband and father, Thomas P. Taylor. We thank each and all who assisted in any manner, and will ever cherish them in memory as our sincere friends. We thank Dr. Telford and Dr. Barnes for their kind words, and those who brought flowers. Especially do we thank the members of the Knights of Pythias Lodge for their words of comfort, and exemplification of friendship and benevolence.

Mrs. T. P. Taylor and daughter, Miss Laura Taylor.

THOROUGHbred S. C. REDS.
Large, rich, red birds of heavy laying strain. Eggs \$1 for 15; \$5 per hundred. Mrs. James Gentry, Speedwell, Ky.

America's Acreage.

"If America goes to war," says the Boston Transcript, "it will have no time to bother with a food crisis. And in truth, there is no more occasion for a food crisis, or a food scarcity, in the United States of America, in peace or war, than there is for an oxygen famine on the summit of Mount Washington. In one year, this country could, if it would, produce enough food to feed all the world including China. We are amazed, nowadays, at the way in which Germany has stood the tests of an almost complete dependence on her own resources in war. But do the people of America realize that the corn field of the United States—the land devoted to the maize crop alone now, or the area which might be devoted to it without taking an acre of ground away from any food grain or from the needed pastures—is larger than the whole extent of Germany?"

"Our wheat field is larger than England. Our pastures are greater than the area of Germany, Austria, and France together. And not more than one-half of the land which might be devoted to the raising of food is cultivated for food. Cotton, tobacco, we can cut them down; corn we must have. But if we are hard pressed now in certain lines of food supplies, it is actually and truly because of a abundance of resources, because our capabilities are so great, so boundless, that no one has ever considered that they would not be adequate to every emergency. We have had so great a food-field that we have not stopped to plant it. We have not considered our food—only our money, and the chance to make it."

Clear Away the Waste.

Bowel regularity is the secret of good health, bright eyes, clear complexion, and Dr. King's New Life Pills are a mild and gentle laxative that regulates the bowels and relieves the congested intestines by removing the accumulated wastes without griping. Take a pill before retiring and that heavy head, that dull spring fever feeling disappears. Get Dr. King's New Life Pills at your druggists, 25c.

PATRIOTIC.

Governor Keyes, of New Hampshire, sent the following telegram to President Wilson:

"New Hampshire, a small state, but always patriotic, has today appropriated half a million dollars for national defense and awaits your command. Our legislature by unanimous vote favors universal military and naval training and service under the direction of the Federal Government and will memorialize Congress to that effect."

A joint resolution favoring universal military training and requesting Congress to make such a system effective at the earliest possible date was adopted by the legislature.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. This tube is inflamed by a running cold or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing cannot be recovered. Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Doctors Agree On Eczema Remedy

Confirm the Statements About D. D. D. Prescription

Geo. T. Richardson, M. D.: "In my opinion, D. D. D. should be applied in all cases of eczema. It immediately relieves the itch, a calm to excited nerves, softens the skin, and gives a strength to the general system."

Dr. T. A. Holmes: "D. D. D. is as near a specific for eczema and the dreaded psoriasis as is quinine for malaria. I cannot overstate the value of D. D. D. for eczema, better, barbers' itch, pimples, all forms of itching eruptions, scales, sores."

Dr. J. T. Gilbert: "I freely admit that D. D. D. is the best remedy for eczema and permanently cures them."

Dr. Gilbert of Caldwell, Kansas, is one of the best skin specialists in the state. Write and ask him about D. D. D. Druggists are glad to recommend this soothing, cooling liquid. 25c, 50c and \$1.00. Come to and we will tell you more about this remarkable remedy. Your money back unless the first bottle cures you. D. D. D. keeps your skin healthy. Ask about it. Keep your skin healthy.

STOCKTON & SON

COURT DAY.

Monday was court day. A large crowd was in the city and business was unusually good. Our merchants did a nice business and all lines were quite active. This was by far the best court day we have had for the past four months. During the months of January, February and March the weather was so disagreeable scarcely any country people could get to town, and those who did venture out only wished they were back home, and consequently little or no business was transacted. In January we had a cold rain and a very small crowd. On February court day we had about 20 inches of snow, and on March court day we had about 14 inches of snow. It was all snow, no crowds, and no business. It rained on April court day during the early morning hours, but the wind shifted from the south to the west, and became cold and penetrating, but the people came in great numbers and all lines of trade were quite active.

There were a number of cattle on sale at both the Madison Stock Yards and East End Yards. The market was quite active and the prices were the highest ever known in the history of the local market. Good 500 to 600 pound steers brought \$10 a hundred. Several bunches sold at this figure. Other lots sold at from \$9 to \$9.75 a hundred. Calves weighing in the neighborhood of 200 pounds, brought \$20 a head. One buyer told us that he had often seen such calves sell at \$3.50 to \$4 a head. He said cattle were higher than ever within his knowledge, and that, in his opinion, they would not be as cheap for some time. In explanation, he said, that owing to the high prices for which tobacco sold last season, many farmers have almost gone crazy, and that many bluegrass pastures would be turned under and planted in the "weed"; that the cattle industry was being neglected by many farmers, and consequently the price would remain low.

There were many horses and mules on the market and a great many changed hands at good prices. The prices ranged from \$125 to \$250 a head for mules, and horses sold at a like figure, it all depending on the style and quality of the animal. The usual crowd and a large number of "jockeys" with the best line of "jockey stuff" ever on exhibition, was here in full force and effect, and they all made money and did considerable business in their respective lines—the mule and horse market.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything else, why not Cardui? ... I did, and soon saw it was helping me ... After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

Stock - Crop.

The recent heavy rains have worked quite a hardship on farmers and truck growers. In many sections very few tobacco beds have been prepared and very few gardens planted.

Farmers are rushed with work and take advantage of every minute of good weather. Very little spring plowing has been done and farmers will be late in getting their crops planted.

A general average of \$325 was secured on 62 head of Herefords at the Iowa Hereford Cattle Breeders' Association sale at Sioux City, Iowa. At the fifth annual sale of William Herkleman, Elwood, Iowa, 56 Short-horns averaged \$441. The top was \$1,225 for the great show cow, Lady Deverall with a bull calf by side.

Simon Ennis, who operates a sugar camp near Petersburg, Ind., is shipping his hogs with sugar water, which contains much sugar and starch, and adds flesh rapidly. He regards the water as a good substitute for corn.

It is said that draft horses in good condition weighing 1600 pounds and up were never so scarce as at present. Prices have advanced steadily and during the past six weeks an average advance of \$50 per head is reported. The New York horseman, Harry P. Whitney, has purchased 600 acres of the late J. B. Haggin's Elmendorf Farm, near Lexington, which it is reported, he will use as a thoroughbred nursery transferring his stud from Redwood, N. J.

The Secretaries of the Central Kentucky Fair Association will meet in Lexington, Wednesday. It is their custom to meet each year and co-operate with each other in improving the coming year's fair by the experiences of the preceding year. Formal announcements of dates and a thorough discussion of the many problems that each association must contend with take place at this meeting. The indications are that Easter mutton will come mighty high. Good sheep were going last week at \$10.00 and good lambs at \$14. Goats sold at \$6. Very few sheep are placed on the Louisville market at this season of the year. The few that do come in are odds and ends from droves where the sheep have died and the backs won't keep another year. In cases of this kind it is advisable to fatten sheep for market. Mutton which is always high at Easter will probably be higher than ever this time. Good stuff will probably bring \$20.

Carlotta Campus Girl, a purebred Holstein four-year-old cow, bred and owned by the University of Missouri, has recently established a new mark for four-year-old cows in Missouri. She produced 99.9 pounds of milk February 7, 1917, and thereby obtained the state record for cows of her age and the second highest Missouri record for cows of all ages.

Start the vegetable seeds in the kitchen window now. It is time. We notice where a Boston woman with two ten cent packets of seed and four pounds of potatoes, grew in her back yard, not only all the vegetable she had need of in her own household, but sold \$30 worth of vegetables.

The spring equinox marks the passing of the earth over the equator in its apparent path around the sun, which is commonly called the northern trip, through which are furnished spring and summer to the northern hemisphere. The spring season will continue until June 21, when the earth will pass the summer solstice.

America is the home of that most wonderful of food plants, Indian corn. The hand which gave this plant to America never meant that there should be a food crisis here. Corn will produce four times as much as wheat per acre, and requires only one-tenth of the seed to sow it, and only one-third of the time from planting until it can be used as food. A woman may take a spade and a hoe in May and with a quart of seed can plant a back yard full of corn which in two months will bring her and her children roaring ears. Our fathers fought their wars with the Indians on a handful of parched corn, but we should have more provisions than they had.

Unusual work, bending or lifting or strenuous exercise is a strain on the muscles, they become sore and stiff, you are crippled and in pain. Sloan's Liniment brings you quick relief easy to apply, it penetrates without rubbing and drives out the soreness. A clear liquid, cleaner than musky plasters or ointments, it does not stain the skin or clog the pores. Always have a bottle handy for the pains and aches of rheumatism, gout, lumbago, grippe, bruises, stiffness, backache and all external pain. At your druggist 25c.
